## / Default Video + Photo Settings

### **DEFAULT VIDEO SETTING: 960P30 FPS**

Your camera is set to 960p 30 fps, which delivers a large viewing area and smooth footage. It's great for a wide range of shooting scenarios, including gear- and body-mounted shots.

If you want to experiment with other video settings, you can find more info in the Camera Settings section of the User Manual.

---

### **DEFAULT PHOTO SETTING: 5MP**

Your camera is set to 5MP resolution.

## / Connecting to the GoPro App

The GoPro App lets you control your camera remotely using a smartphone or tablet. Features include full camera control, live preview, playback and sharing of select content and more\*.

1. Download the GoPro App to your smartphone or tablet at the Apple App Store, Google Play or Windows Phone marketplace.
2. Press the Power/Mode Button [  ] to power camera **ON**.
3. Press the Wi-Fi On/Off Button [  ] twice, then press the Shutter/Select Button [  ] to enter the **Wi-Fi** menu [  ].
4. Press the Power/Mode Button [  ] to cycle to **GoPro App**, then press the Shutter/Select Button [  ] to select it.
5. In your smartphone or tablet's Wi-Fi settings, connect to the network called "GOPRO-BP" followed by a series of numbers/ letters. Enter the password "goprohero"\*\*\*.
6. Open the GoPro App on your smartphone or tablet.

\*For device compatibility, please visit [gopro.com](http://gopro.com).

\*\*\*This is the default network name and password. You can customize this if you update your camera software at [gopro.com/update](http://gopro.com/update).

## / Playing Back Videos + Photos
