

HOW TO ASSEMBLE GEO'S TABLE

- a. table supports
- b. cross piece
- c. table top
- d. drawer

Note: Assemble the table loosely and avoid tightening all nuts until all parts are assembled.

1. Place the table top in an upright position.
2. Attach the one support and then the cross piece.
3. Turn the table top over, attach the other support and secure the cross piece.
4. Place the table on a level surface, and insert the drawer.
