

# PRODUCT FACT SHEET

**KEEP TABLE**  
FURNITURE / LIGHTING / ACCESSORIES

**Thörne & Johnsson on the design** "Keep is a table crafted from the leftover materials of furniture production. Instead of going to waste, the rejected wood injects value and character to the design."

## PROCESS

The Keep table is 99% made by hand. The frame is carefully assembled from leftovers from the workshop. It requires a lot of handwork to fit the wood pieces together and to make a solid and nice table. Metal bands hold the wood together. All tables are assembled and tested before packing.

## DESIGNED BY / YEAR OF DESIGN

Thörne & Johnsson / 2010

## TYPE

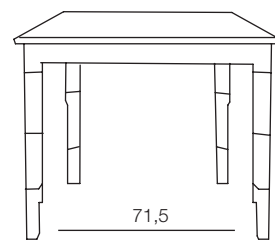

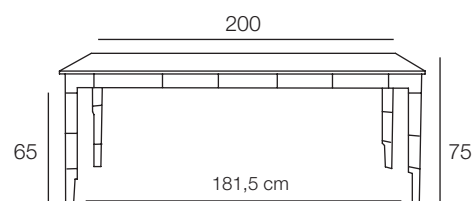

Multi functional table

## ENVIRONMENT

Indoor

## DIMENSIONS (CM)

Length: 200  
Width: 92  
Leg height: 65  
Total height: 75  
Length between legs: 181,5  
Width between legs: 71,5

## MATERIAL

Linoleum, various types of wood, metal bands

## COLOUR / REFERENCE CODE

Frame: A mix of wood  
Table top: Black

## CLEANING INSTRUCTIONS

Clean table often and carefully with a soft and dry cloth following the grain pattern. Periodically clean with moist cloth. The wood should not be subjected to excessive humidity, heat or direct sunlight. Use of wax, oil, etc. is dependent on the finish type and is done at own risk.

## ABOUT THE DESIGNER

Thörne and Johnsson was the winning duo in Muuto's 2009 Talent Award competition for design students. The table Keep was their senior project at Konstfack School of Design in Stockholm.
