

Playing with the wind has become not only easy and comfortable, it's a lot of fun too! The senz° mini easily slices its way through all winds.

Due to its aerodynamic design, the senz° storm umbrellas always find the most comfortable position in the wind. That makes it exceptionally pleasant to use the senz° mini, even in stronger gales. The umbrella is windproof up to 80 km/h (40 MPH) and still fits in your bag! Additionally, its unique shape gives you a perfect sight with the best possible rain protection.

The senz° mini is strong, yet still practically foldable. The senz° mini is not only very functional, but also a delight for your eyes!

features

canopy

The water repellent pongee fabric provides UV protection, while the drops of rain easily slide off.

foldable ribs

The unique frame with variable rib lengths allows the senz° mini to be strong, yet still practically foldable.

eyesaver

The eyes of fellow pedestrians are protected by these unique rib tips. Finally, no more umbrella eye-poking!

elastic cord

The flexible senz° cord provides an easy and comfortable carrying experience.

aerodynamic shape

The aerodynamic shape of the senz° storm umbrella allows you to play with the wind with unmatched comfort, while maintaining the best possible rain protection.

vision

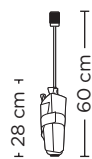

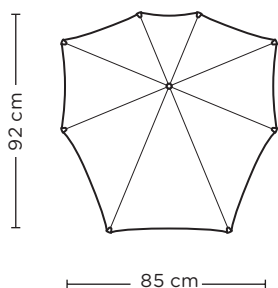

The shorter front end provides great visibility, so bumping into other umbrella users is a thing of the past!

handle

The handle guarantees top performance in all weather conditions.
