

PLAY:5

THE ORIGINAL, BIGGER ROOM,
BIGGER SOUND, ALL-IN-ONE
SONOS PLAYER

SONOS
THE WIRELESS HiFi SYSTEM

PLAY:5 BENEFITS

SONOS HiFi SOUND.

Five integrated speakers powered by five dedicated digital amplifiers (two tweeters, two mid-range drivers and one subwoofer driver) provide crystal-clear, room-filling sound that rivals much larger, more complicated audio equipment.

ALL DIGITAL SOUND.

The all-digital sound architecture provides precise sound reproduction, just as the artist intended. All filter settings, active equalization and time-alignment are done in the digital domain so there's no loss of audio quality or energy.

START WITH ONE, EXPAND ANYWHERE.

Add as many Sonos players as you want throughout your home. Wirelessly. Play different songs in every room or the same song everywhere, in perfect sync.

STEREO PAIR FOR BIGGER SOUND.

Turn two PLAY:5s into separate left and right channel speakers for even bigger stereo sound in one room.

WIRELESS, EASY TO SET UP.

No rewiring. No complex programming. Simply connect a SONOS BRIDGE or PLAY:5 to your wireless router and link all your Sonos players wirelessly with one touch.

STREAM ALL THE MUSIC ON EARTH.

Enjoy a universe of music everyday – your iTunes® library, your favorite music services, and more than 100,000 free Internet radio stations, shows and podcasts.
