

Digital Luggage Scale

DIGLGSC

The simple to use, portable, Electronic Luggage Scales make holidays easier than ever before.

Jetting off on holiday can be stressful enough without having to guess if your luggage exceeds the airline's weight limit. There's nothing worse, than queuing up for an hour at the check in desk, with fingers crossed, only to be told that one of your bags is too heavy.

Well with the Electronic Luggage Scales you can pack your bags with complete confidence, because this ingenious little device gives you the accurate weight of your luggage every time.

The ergonomic design makes this the best luggage scale on the market, guaranteeing comfortable and simple use. It has been developed to make lifting the luggage and reading the weight display safer and easier than ever before.

All you have to do is simply insert the belt, which is attached to the scales, through the handle of your luggage, lift it up and the LCD screen will display the weight. And while on holiday, to see what the day has in store for you, the LCD also displays the temperature.

The scales capacity is an impressive 50kg, includes an overload indicator, and is small enough to slip into your hand luggage. It really is the perfect way to be prepared for your travels.

Achieve lift off with the great Electronic Luggage Scales.

- >> Portable and simple to use
- >> Redeveloped ergonomic design
