

# Dancing Cat

## DANCAT

Cute, cuddly and a real twinkle-toes on the dance floor, this adorable dancing cat is no ordinary speaker!

Designed to work with almost any audio source with a 3.5mm input jack (think smart phones, MP3 players, computers, laptops and more), this hilarious Dancing Cat Speaker not only plays your music, it dances to it too! Simply connect it to your chosen audio player using the cable provided and watch it bob about in time to the music being played!

What's more, it comes with a choice of two function modes, 'Dance' and 'Speaker'. If you want the Cat to dance along to the music it's playing, simply switch it on as normal using the on/off switch set behind the Velcro opening in the middle of its back. However, if you just want it to play the music without the accompanying choreography, give its left paw a squeeze – there's a button hidden inside that'll switch the dancing off right away. Missing the cat's moves? Give it another squeeze and it'll start boogying where it left off!

- >> Cute and cuddly Dancing Cat Speaker – moves in time to the music playing!
- >> Two function modes: Dance / Speaker
- >> Compatible with the majority of audio players with a 3.5mm jack input (smart phones, MP3 players, computers, laptops etc)
