

iPhone 4 - Game Control Cover

IP4GAMCONCOV

Remember the time you got RSI from your GameBoy?! With technology moving forward so quickly sometimes its nice to remember where we started and how far weve come! This Game Control iPhone Cover can only be described as tangible nostalgia.

With the touchscreen technology on offer now, all you need to control your latest game is a few delicate taps and swishes, but we do sometimes pine for the simpler technology of our youth.

Enter: the Game Control Cover - familiar A and B buttons and solid retro design but with the option to flip over to your iPhone to enjoy the delights of hurling furious birds at perplexed pigs.
