

# Touch Speaker

## TOUSPK

The Touch Speaker is one of the first devices to use debut wireless NearFA™ (Near Field Audio) technology. There is no need to configure any wireless settings or plug in cables, just set your device on the speaker and enjoy your amplified sound. With a lightweight modern design finished in a grey silicone protector, this speaker will become your ultimate music travel companion.

Boasting a powerful 2.5W x 2 RMS output, the Touch Speaker is compatible with most iOS devices as well as Android and other phones containing an inbuilt mobile speaker. There is also an optional 3.5mm jack connection to ensure you will always have the option to amplify sound on the go.

- NFA technology – just place your phone on the speaker to amplify the sound
- High quality, portable sound
- Protective silicone sleeve
- Compatible with most smart phones and MP3 players with external speakers
- 3 modes: On/Off/Stand By (from stand by, the speaker will automatically turn ON if touched by your device)
- USB or battery powered (requires 3 x AA batteries - not included. Cables sold separately)
- Optional 3.5mm jack connection (cable not included)
- Output: 2W x 2 RMS
