

PRODUCT FACT SHEET

OTO 100
FURNITURE / LIGHTING / ACCESSORIES

Pil Bredahl on the design "The storage system is made for the modern nomad and inspired by the fact that we move more often in our lives than ever before. It can be separated and assembled very easily. It has a clear sculptural value and you can put it in the formations you like best. When it's not used for books, magazines, clothes etc. It can lay on the floor, each ring inside the bigger ring creating a beautiful pattern."

PROCESS

The OTO100 is made by fibre glass and polyester. After hardened for 10 hours the tubes get removed from the tools and the edges get grinded and polished.
